

MAHESH DAHAL

Growth and Operations Manager

Nepal | <https://wahesh.github.io/> | <https://www.linkedin.com/in/maheshdahal/> | <https://github.com/wahesh>

PROFESSIONAL SUMMARY

Operations and growth leader with 12+ years across startups, enterprise security (SIEM), IoT, international development, and cloud adoption. Builds systems that turn growth plans into predictable execution: AI-led compliance for SaaS, partnerships, GTM cadence, and lean operations. Strengths: rapid prototyping, IoT, cybersecurity, VAPT-style work with responsible disclosure, product and project management, Python and JavaScript (pipelines, automation, APIs), Azure and AWS. Arctic Code Vault Contributor; merged open-source work to Canonical and WordPress ecosystem repositories.

PROFESSIONAL EXPERIENCE

ZeroTB

Growth and Operations Manager

August 2025 - Present | Nepal

- Coordinate engineering and delivery, project management, and day-to-day operations and GTM for AI-led compliance at a startup.
- Partnerships, internal cadence, and scalability of information-services offerings.
- Finance-adjacent support: budget inputs, forecasting, lean ops for measurable outcomes.

UNICEF

Assessment Specialist

February 2024 - August 2025 | Nepal

- Led national school-readiness assessment across 280 schools (probability-based sampling, rigorous field protocols).
- Instrument quality (IRR, CVI), enumerator training, analysis in Python and R; co-authored published report for policy dialogue.

Logpoint

Engineering Manager

April 2023 - February 2024 | Kathmandu, Nepal

- Engineering delivery for converged SIEM and security analytics in a global product org.
- Log normalization, correlation content, release quality under enterprise expectations; mentored engineers and balanced roadmap with sustainable execution.

Kipuwex

Software Engineering Manager

June 2019 - March 2022 | Finland

- IoT: wearables and gateways streaming body data; stream analytics, alarms, remote health monitoring beyond dashboards.
- Led team of five: Flutter, Node, React on AWS; SLAs, releases, documentation, hiring; aligned engineering with clinical and customer success.

Graphene Inc.

Chief Technology Officer

July 2020 - February 2021 | Kathmandu, Nepal

- R&D for NLTK-based news aggregator with sentiment and keyword intelligence; hands-on pipelines and early-stage trade-offs.
- Mentored team; aligned technical bets with founder priorities.

UNICEF

IT Consultant

September 2017 - December 2019 | Kathmandu, Nepal

- Reconstruction information-management systems with Ministry of Education and NRA post-earthquake.
- Dashboards, RBAC, workflows for field and central teams; training and iterative rollout with government and NGO partners.

Microsoft Innovation Center Nepal

Microsoft Azure Evangelist

January 2011 - August 2015 | Nepal

- Azure adoption via programmes, workshops, labs for MSPs and ISVs (100+ partners).
- Architecture reviews and pilots (e.g., AEPC, Nepal Biogas); shaped local cloud narrative.

BrainWorks Learning Solutions

Technical Consultant

January 2011 - July 2015 | Kathmandu, Nepal

- Dynamics NAV and Azure-backed solutions for health, energy, and development programmes.
- End-to-end rollouts including Unlimited Drishtee, Urza, Sarsaaman, Surackshya; training and handover.

EDUCATION

- Executive Education, Leading for Innovation - Lee Kuan Yew School of Public Policy (NUS), 2021
- Higher Diploma, Research and Writing - The Open Institute, 2023-2024
- MBA, Entrepreneurship - Westcliff University (King's College, Nepal), 2016-2018
- Bachelor of Information Technology - Sikkim Manipal University, 2011-2015
- Design Thinking (DevLAB) - Oulu University of Applied Sciences, 2018
- Intermediate in Engineering (NLP, Visual Programming) - Thapathali Campus, 2008-2011 (Best Project, 3rd at LOCUS)

SKILLS

Rapid prototyping, IoT, cybersecurity, VAPT, responsible disclosure, product management, project management, Agile, Scrum, operations, engineering, analytics, compliance, LLM, AI, ISO and SOC 2 audit readiness, partnerships, GTM, Python, JavaScript, R, React, AWS, Microsoft Azure, Dynamics NAV, information management, research, SIEM, data pipelines, automation.

CERTIFICATIONS

- Microsoft MVP; Microsoft Certified Trainer (MCT)
- Azure IaaS Deep Dive; Microsoft Certified Professional
- HTML5, JavaScript, CSS3; SQL Server; Dynamics NAV

SELECTED PROJECTS

- Fleet GPS and telematics: embedded devices to cloud, live tracking, alerts, fuel monitoring.
- Kipuwx IoT: Flutter, Node, React, AWS; real-time vitals and clinical workflows.
- Rental management SaaS: payments, tenants, maintenance, marketplace integrations.
- Race registration and timing: IoT edge for reads and official results.
- AI news aggregator: ingest, dedupe, NLP summaries, sentiment, keyword alerts.
- Open source: Canonical (e.g., charm-eng-releases) and WordPress project repositories.
- UNDP Turkey: conflict threat monitoring (Telegram, OSINT) for situational awareness.
- Enterprise delivery: Unlimited Sarsaaman (ArmyNet), Urza (biogas/Azure), Drishtee (EMR), Surackshya (GGMS); Aawaz (UNICEF, Windows Phone offline reporting).

HONORS AND PUBLICATIONS

- Microsoft MVP (2016); MSP of the Year, Microsoft Nepal (2011); Second Runner Up, LOCUS NLP and voice, IOE Pulchowk (2011); Microsoft Student Partner; Canonical contributor (merged PR).
- School Readiness Report 2080 (Nov 2024): 280 schools, ELDS tools, CVI and IRR; policy benchmarks.
- Azure and SQL technical articles on SlideShare (2014): 70-533, Azure infrastructure, SQL mirroring.
